

Emre Karaca

Frontend Engineer

Dynamic and detail-oriented sociologist-turned-frontend-engineer with a great passion for conceptualizing and delivering elegant, user-friendly solutions effectively and efficiently. Continuously keeping up-to-date with most recent developments in the JavaScript-ecosystem. Self-thought since the beginning of 2016 and carried out several projects successfully.

Relevant Working Experience

- 09/2017 - 01/2018** **Data Science Intern**
Analyse & Tal, Copenhagen
I developed a number of web-based data analysis dashboards. During this work, I convinced the company to move from jQuery to Vue.js for all projects involving the development of frontend products. My core internship project was a experimental dashboard, which monitored the social media performance of the Danish political parties on Facebook. The project was developed with Vue.js. The dashboard was used by several political clients.
- 07/2018 - 10/2018** **Frontend Developer (Freelance)**
Analyse & Tal, Copenhagen
I was responsible for the development of the frontend for the GoogleDNI-financed project **kennditfolketing.dk** ("know your parliament"). For this project, political process data was collected from the API of the Danish parliament, analyzed and visualized on the platform. The frontend was developed with Vue.js. The platform is used by schools across the country.
- 11/2018 - 01/2019** **Fullstack Developer (Freelance)**
Analyse & Tal, Copenhagen
In a project for the Danish foreign ministry, I developed a frontend with Vue.js and Apollo and a backend with Node/Express and a GraphQL-layer for connecting to several databases.
- 02/2019 -** **Frontend Developer**
Easybell GmbH, Berlin
I was hired to help the company transition from a monolith codebase with Bootstrap/jQuery to separated Vue.js-frontends with a modern toolchain. During this process, I created a centralized component library, which is published as a semver-versioned npm-package and can be consumed by all dependent projects. I am currently building out a marketing page with a headless CMS and Nuxt.JS.

Conferences Attended

Over the past three years, I had the privilege of attending several conferences, in part through scholarships or as a volunteer.

- 2017** Fullstack London, Coldfront Copenhagen, JSconf Budapest
2018 CSSconf & JSconf EU, Vue London, VueJS Roadtrip Berlin
2019 JSconf EU

Volunteer Work

My time in the pedagogical sector has developed my leadership and teamwork skills as well as my communicative abilities. Especially my years at challenged Berlin schools have developed my tolerance to stress and my ability to operate in crisis situations.

- 2008 - 2018** **Anne Frank Zentrum Berlin**
Educator in the pedagogical center
- 2013 - 2016** **Dialog macht Schule**
Dialogue moderator at four challenged Berlin schools

Academic Education

My studies in social sciences have equipped me with a deep understanding of social and societal processes as well as with the ability to grasp highly complex topics within a very short time frame.

- 10/2010 - 09/2015** **BA Social Sciences**
Humboldt University Berlin
- 08/2012 - 12/2012** **Academic Exchange Semester - USA**
University of California, Berkeley
- 10/2015 - 12/2018** **MA Social Sciences**
Humboldt University Berlin
- 08/2016 - 08/2017** **Academic Exchange Year – Denmark**
University of Copenhagen
